

# September Newsletter 2024

## Exciting News for MRC USA 2024 and ORIC 2024!

**1-We are delighted to bring you some thrilling updates from the InnovateSTEAM Foundation as we embark on an exciting new chapter. This September marks the beginning of our preparations for two major events that will showcase innovation, technology, and international collaboration.**

### **Introducing MRC USA 2024 and ORIC 2024**

We are proud to announce the inaugural editions of the MRC USA 2024 and ORIC 2024 (Robotics and Innovation Competitions), which will take place in the United States. These landmark events will gather participants from across the globe, offering a unique platform for young innovators and technology enthusiasts to demonstrate their skills and creativity.

### **What You Can Look Forward To:**

- **Global Participation:** Teams from various countries will come together to compete and learn in an international setting. This diverse participation promises to enhance cross-cultural understanding and inspire new ideas in technology and innovation.
- **Awards and Recognition:** To honor the exceptional efforts and achievements of all participants, we will be presenting trophies and certificates. Every participant will receive a commemorative certificate to acknowledge their hard work and contributions.
- **Cutting-Edge Facilities:** Our events will be hosted in state-of-the-art venues, ensuring a high-quality experience with the latest technology and resources at participants' disposal.
- **Thorough Preparation:** We are working diligently to ensure that both MRC USA 2024 and ORIC 2024 are organized to the highest standards. From event logistics to program planning, we are committed to delivering memorable and impactful experiences.

### **Be Part of History**

We invite you to join us in celebrating and participating in these historic events. Whether you are a competitor, supporter, or technology enthusiast, there will be numerous opportunities to engage, learn, and witness the future of innovation and robotics. Stay tuned for more details as we approach these exciting events. We look forward to welcoming you to MRC USA 2024 and ORIC 2024, where the forefront of technology and innovation will shine brightly!

## 2- Get Ready for MRC USA 2024 and ORIC 2024!

We are thrilled to share exciting updates about the upcoming **MRC USA 2024 and ORIC 2024!** These landmark events are set to take place from **September 6-8, 2024**, and will showcase innovation and technology in a series of engaging and dynamic competitions.

### Event Schedule and Locations:

- **September 6, 2024:** Quill Hill Community Center Join us for an opening ceremony and cultural night at the Quill Hill Community Center. This event will feature a vibrant celebration with a host of VIP attendees, including James Mai from the Irvine City Council and Giannis Karouzakis, President of MRC. This will be a fantastic opportunity to experience a cultural showcase and network with key figures in the field.
- **September 7, 2024:** Wollet Aquatic Center On the second day, we will dive into the world of submarines at the Wollet Aquatic Center. This venue will host a range of activities focused on underwater technology and innovation, providing a unique platform for participants to explore and compete in submarine-related challenges.
- **September 8, 2024:** Foothill High School The final day of the competition will take place at Foothill High School, where the NRC USA Competition will be held. This will be the culmination of our events, featuring exciting robotics challenges and showcasing the talent of participating teams.

### A Global Gathering:

We are excited to welcome **70 teams from around the world** to participate in these prestigious events. Each team will have the chance to demonstrate their skills, engage with peers, and experience cutting-edge technology and innovation in a supportive and competitive environment.

### What to Expect:

- **Opening Ceremony and Cultural Night:** Celebrate with us at the Quill Hill Community Center, where the event will be officially launched with cultural performances and networking opportunities with esteemed guests.
- **Submarine Technology Showcase:** Experience hands-on activities and competitions focused on underwater technology at the Woollett Aquatic Center.
- **Robotics Competitions:** Watch as teams showcase their innovative robotics solutions and compete in challenging scenarios at Foothill High School.

We look forward to an incredible three days of innovation, learning, and global collaboration. Stay tuned for more updates and details as we approach these exciting events
